MORMON" PHILOSOPHY. Lecture in Ogden Tabernacle by Elder Charles W. Penrose.

nacle yesterday afternoon Elder Charles W. Penrose delivered a most interesting discourse before a large congregation on "Mormon Philosophy." He quoted many passages of Scripture and took up the creation of the earth and man, showing that when God created the earth He did not bring it together out of nothing, but that the ma-terfals of which the earth was created were brought together by His almighty power, that after the earth was fash-loned the Lord created man out of the foned the Lord created man out of the dust, into which he also returns, and his spirit returns to God who gave it. Elder Penrose proved most beautifully the existence of God from natural principles as well as Bible proof, and urged his hearers to live according to the laws and commandments of our heavenly Father that they might be worthy to return to His presence and be exreturn to His presence and be ex-
